**BORNEO HOUSING MORTGAGE FINANCE BERHAD**  
(Incorporated in Malaysia)

**DIRECTORS' REPORT**

The directors of **BORNEO HOUSING MORTGAGE FINANCE BERHAD** have pleasure in submitting their report and the audited financial statements of the Economic Entity and of the Company for the financial year ended 31 December 2022.

**PRINCIPAL ACTIVITIES**

The Company, a financial institution with the primary objective of promoting home ownership, is principally engaged in providing end finance to house owners and other property owners and bridging finance to developers.

**RESULTS OF OPERATIONS**

The results of operations of the Economic Entity and of the Company for the financial year are as follows:

	<b>Economic Entity RM</b>	<b>Company RM</b>
<b>Profit for the year</b>	<u>26,091,379</u>	<u>26,033,696</u>

In the opinion of the directors, the results of operations of the Economic Entity and of the Company during the financial year have not been substantially affected by any item, transaction or event of a material and unusual nature.

**DIVIDENDS**

Since the end of the previous financial year, a final tax exempt (single tier) dividend of RM14,000,000 was declared on 26 September 2022 in respect of the financial year ended 31 December 2021. The dividend was paid on 13 December 2022.

Subsequent to the financial year end, a final tax exempt (single tier) dividend of RM14,000,000 was declared on 9 September 2023 in respect of the financial year ended 31 December 2022.

**RESERVES AND PROVISIONS**

There were no material transfers to or from reserves or provisions during the financial year other than those disclosed in the financial statements.

**ISSUE OF SHARES AND DEBENTURES**

The Company has not issued any new shares or debentures during the financial year.

## **SHARE OPTIONS**

No options have been granted by the Company to any parties during the financial year to take up unissued shares of the Company.

No shares have been issued during the financial year by virtue of the exercise of any option to take up unissued shares of the Company. As of the end of the financial year, there were no unissued shares of the Company under options.

## **OTHER STATUTORY INFORMATION**

Before the financial statements of the Economic Entity and of the Company were prepared, the directors took reasonable steps:

- (a) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and had satisfied themselves that all known bad debts had been written off and that adequate allowance had been made for doubtful debts; and
- (b) to ensure that any current assets which were unlikely to be realised in the ordinary course of business including the value of current assets as shown in the accounting records of the Economic Entity and of the Company had been written down to an amount which the current assets might be expected so to realise.

At the date of this report, the directors are not aware of any circumstances:

- (a) which would render the amount written off for bad debts or the amount of the allowance for doubtful debts in the financial statements of the Economic Entity and of the Company inadequate to any substantial extent; or
- (b) which would render the values attributed to current assets in the financial statements of the Economic Entity and of the Company misleading; or
- (c) which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Economic Entity and of the Company misleading or inappropriate; or
- (d) not otherwise dealt with in this report or the financial statements of the Economic Entity and of the Company which would render any amount stated in the financial statements misleading.

At the date of this report, there does not exist:

- (a) any charge on the assets of the Economic Entity and of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; and
- (b) any contingent liability of the Economic Entity and of the Company which has arisen since the end of the financial year.

No contingent or other liability has become enforceable, or is likely to become enforceable, within the period of twelve months after the end of the financial year which, in the opinion of the directors, will or may substantially affect the ability of the Economic Entity and of the Company to meet their obligations when they fall due.

In the opinion of the directors, no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of operations of the Economic Entity and of the Company for the financial year in which this report is made.

## **DIRECTORS**

The directors of the Company in office during the financial year and during the period from the end of the financial year to the date of this report are:

Tan Sri Datuk Amar (Dr) Haji Abdul Aziz Bin Haji Husain  
Datuk Bolkiah Bin Ismail  
Hasmawati Binti Sapawi  
Ahmad Rizal Bin Dahli  
Elean Binti Masa'at  
Mohd. Faizal Mohd. Tahir (appointed on 16.8.2022)  
Dionysia @ Audrey Binti Aloysius Kibat (resigned on 16.8.2022)

## **DIRECTORS' INTERESTS**

None of the directors in office at the end of the financial year held shares or had beneficial interests in the shares of the Company during or at the beginning and end of the financial year.

## **DIRECTORS' BENEFITS**

Since the end of the previous financial year, none of the directors of the Company has received or become entitled to receive any benefit (other than the benefit included in the aggregate of emoluments received or due and receivable by directors amounting to RM349,573) by reason of a contract made by the Company or a related corporation with the director or with a firm of which he is a member, or with a company in which he has a substantial financial interest except for any benefit which may be deemed to have arisen by virtue of the transactions between the Company and certain companies in which certain directors of the Company are also directors and/or shareholders as disclosed in Note 31 to the financial statements.

During and at the end of the financial year, no arrangement subsisted to which the Company was a party whereby directors of the Company might acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

## **INDEMNITY AND INSURANCE FOR DIRECTORS, OFFICERS AND AUDITORS**

During the financial year, the total amount of indemnity coverage and insurance premium paid, for the directors and the officers of the Company, are RM10,000,000 and RM48,770 respectively.

There were no indemnity given to or insurance effected for the auditors of the Economic Entity and of the Company in accordance with Section 289 of the Companies Act 2016.

## **SHAREHOLDERS**

The Company is equally owned by the Sarawak State Financial Secretary, a body corporate constituted under the State Financial Secretary (Incorporation) Ordinance, 1948, and Qhazanah Sabah Bhd., a company wholly-owned by the State Government of Sabah.

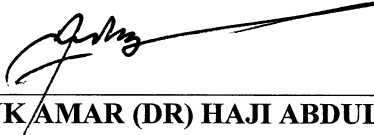

## **AUDITORS**

The auditors, Deloitte PLT, have indicated their willingness to continue in office.

**AUDITORS' REMUNERATION**

The amount payable as remuneration of the auditors for the year ended 31 December 2022 is RM80,000.

Signed on behalf of the Board, as approved by the Board  
in accordance with a resolution of the Directors

**INDEPENDENT AUDITORS' REPORT  
TO THE MEMBERS OF BORNEO HOUSING MORTGAGE FINANCE BERHAD  
(Incorporated in Malaysia)**

**Report on the Audit of the Financial Statements**

**Opinion**

We have audited the financial statements of Borneo Housing Mortgage Finance Berhad., which comprise the statements of financial position as at 31 December 2022 of the Economic Entity and of the Company, and the statements of comprehensive income, statements of changes in equity and statements of cash flows of the Economic Entity and of the Company for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 8 to 59.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Economic Entity and of the Company as at 31 December 2022, and of their financial performance and their cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

**Basis for Opinion**

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

*Independence and Other Ethical Responsibilities*

We are independent of the Economic Entity and of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

### **Information Other than the Financial Statements and Auditors' Report Thereon**

The directors of the Company are responsible for the other information. The other information comprises the Directors' Report but does not include the financial statements of the Economic Entity and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Economic Entity and of the Company does not cover the Directors' Report and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Economic Entity and of the Company, our responsibility is to read the Directors' Report and, in doing so, consider whether the Directors' Report is materially inconsistent with the financial statements of the Economic Entity and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of the Directors' Report, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of the Directors for the Financial Statements**

The directors of the Company are responsible for the preparation of financial statements of the Economic Entity and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Economic Entity and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Economic Entity and of the Company, the directors are responsible for assessing the Economic Entity's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Economic Entity or the Company or to cease operations, or have no realistic alternative but to do so.

### **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements of the Economic Entity and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Economic Entity and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Economic Entity's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Economic Entity's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Economic Entity and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Economic Entity or the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Economic Entity and of the Company, including the disclosures, and whether the financial statements of the Economic Entity and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Economic Entity to express an opinion on the financial statements of the Economic Entity. We are responsible for the direction, supervision and performance of the Economic Entity audit. We remain solely responsible for our audit opinion.

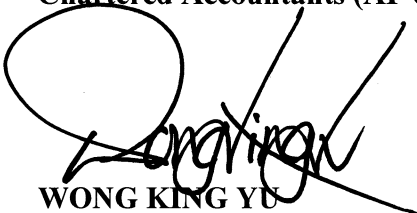

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### **Other Matters**

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

**BORNEO HOUSING MORTGAGE FINANCE BERHAD**  
(Incorporated in Malaysia)

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2022**

**1. GENERAL INFORMATION**

The Company is a public limited liability company, incorporated and domiciled in Malaysia.

The Company, a financial institution with the primary objective of promoting home ownership, is principally engaged in providing end finance to house owners and other property owners and bridging finance to developers.

The principal activities of the associates are as disclosed in Note 18.

The registered office of the Company is located at Lot 13499, 13500 & 13501, Section 65, Kuching Town Land District, Medan Hamizan, Jalan Tun Abdul Rahman Yaakub, 93050 Petra Jaya, Kuching, Sarawak, Malaysia.

The principal places of business of the Company is located at Menara Borneo Housing, Lot No. 48, Jalan Ikan Juara 2, Sadong Jaya, Karamuning, 88100 Kota Kinabalu, Sabah, Malaysia and Lot 13499, 13500 & 13501, Section 65, Kuching Town Land District, Medan Hamizan, Jalan Tun Abdul Rahman Yaakub, 93050 Petra Jaya, Kuching, Sarawak, Malaysia.

The financial statements of the Company have been approved by the Board of Directors and were authorised for issuance on 9 September 2023.

**2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS**

The financial statements of the Economic Entity and the Company have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRS”), International Financial Reporting Standards (“IFRS”) and the provisions of the Companies Act 2016 in Malaysia.

**2.1 Amended MFRS Standards that are effective for the current year**

In the current year, the Economic Entity and the Company have applied all of the amendments to MFRS issued by the Malaysian Accounting Standards Board (“MASB”) that are mandatorily effective for the current financial year.

Amendments to MFRSs	Annual Improvements to MFRS Standards 2018 - 2020
Amendments to MFRS 3	Reference to the Conceptual Framework
Amendments to MFRS 16	Covid-19 - Related Rent Concession beyond 30 June 2021
Amendments to MFRS 116	Property, Plant and Equipment - Proceeds before Intended Use
Amendments to MFRS 137	Onerous Contract - Cost of Fulfilling a Contract

The adoption of these amendments to MFRS has had no material impact on the disclosures or on the amounts recognised in the financial statements.

## 2.2 New and revised MFRS in issue but not yet effective

At the date of authorisation of these financial statements, the Economic Entity and the Company have not applied the following MFRS and amendments to MFRS that have been issued but are not yet effective:

MFRS 17	Insurance Contracts <sup>1</sup>
Amendments to MFRS 10 and MFRS 128	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture <sup>4</sup>
Amendments to MFRS 16	Lease Liability in a Sale and Leaseback <sup>2</sup>
Amendments to MFRS 17	Insurance Contracts <sup>1</sup>
Amendments to MFRS 17	Initial Application of MFRS 17 and MFRS 9 - Comparative Information <sup>1</sup>
Amendments to MFRS 101	Disclosure of Accounting Policies <sup>1</sup>
Amendments to MFRS 101	Classification of Liabilities as Current or Non-current <sup>2</sup>
Amendments to MFRS 101	Non-Current Liabilities with Covenants <sup>2</sup>
Amendments to MFRS 107 and MFRS 7	Supplier Finance Arrangements <sup>2</sup>
Amendments to MFRS 108	Definition of Accounting Estimates <sup>1</sup>
Amendments to MFRS 112	Deferred Tax related to Assets and Liabilities arising from a Single Transaction <sup>1</sup>
Amendments to MFRS 112	International Tax Reform - Pillar Two Model Rules <sup>1</sup>
Amendments to MFRS 121	The Effects of Changes in Foreign Exchange Rates <sup>3</sup>

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2023, with earlier application permitted.

<sup>2</sup> Effective for annual periods beginning on or after 1 January 2024, with earlier application permitted.

<sup>3</sup> Effective for annual periods beginning on or after 1 January 2025, with earlier application permitted.

<sup>4</sup> Effective for annual periods beginning on or after a date to be determined.

The directors anticipate that the abovementioned MFRS and amendments to MFRS will be adopted in the financial statements of the Economic Entity and the Company when they become effective and that the adoption of these MFRS and amendments to MFRS will have no material impact on the financial statements of the Economic Entity and of the Company in the period of initial application.

## 3. SIGNIFICANT ACCOUNTING POLICIES

### Basis of accounting

The financial statements of the Economic Entity and of the Company have been prepared on the historical cost basis unless otherwise indicated in the accounting policies stated below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Economic Entity and the Company take into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of MFRS 2, leasing transactions that are within the scope of MFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in MFRS 102 or value in use in MFRS 136.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

### **Going concern**

The directors have, at the time of approving the financial statements, a reasonable expectation that the Economic Entity and the Company have adequate resources to continue in operational existence for the foreseeable future. Thus, they continue to adopt the going concern basis of accounting in preparing the financial statements.

### **Revenue recognition**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Economic Entity and the Company and the revenue can be reliably measured regardless of when the payment is made. Revenue is measured at the fair value of consideration received or receivable taking into account contractually defined terms of payment and excluding taxes or duty.

#### **(i) Interest/Profit income**

Interest/Profit income is recognised in the statements of comprehensive income on an accrual basis using the effective interest method.

#### **(ii) Fee income**

Fee income such as the managing agency fee, loan processing fee and insurance commission are recognised at a point in time when the services have been rendered.

#### **(iii) Reminder and guarantee fee**

Fees earned for the provision of services over a period of time, such as reminder and guarantee fees, are accrued over the period.

### **Foreign currency**

The financial statements of the Economic Entity and of the Company are presented in the currency of the primary economic environment in which the Economic Entity and the Company operate (their functional currency). The financial statements are expressed in Ringgit Malaysia, which is the functional currency of the Economic Entity and of the Company, and also the presentation currency.

Transactions in currencies other than the functional currency of the Economic Entity and of the Company (foreign currencies) are recorded at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences are recognised in profit or loss in the year in which they arise except for exchange differences arising on the retranslation of non-monetary items carried at fair value in respect of which gains and losses are recognised in other comprehensive income. For such non-monetary items, the exchange component of that gain or loss is also recognised in other comprehensive income.

### **Employee benefits**

#### **(i) Short-term employee benefits**

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees of the Economic Entity and of the Company. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short-term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

#### **(ii) Defined contribution plan**

The Economic Entity and the Company are required by law to make monthly contributions to the Employees' Provident Fund ("EPF"), a statutory defined contribution plan for all its eligible employees based on certain prescribed rates of the employees' salaries. The Economic Entity's and the Company's contributions to EPF are disclosed separately. The employees' contributions to EPF are included in salaries and wages. The said contributions are recognised as an expense when employees have rendered service entitling them to the contributions. The Economic Entity and the Company have no further payment obligations once these contributions have been paid.

#### **(iii) Defined benefit plans**

The Company operates an unfunded defined benefit plan for qualifying employees of its branches in Sabah and Sarawak. Under the plans, the employees are entitled to retirement benefits of one month final salary for each of service upon attaining the mandatory retirement age of sixty (60) or optional retirement age or passed away before attaining the retirement age. The amount payable under this plan will be net off the amount paid under the previous two retirement schemes, namely Staff Provident Fund and Gratuity Retrenchment Fund.

The Company has since ceased further contributions to the previous two retirement schemes and that the Staff Provident Fund had been transferred to Employees' Provident Fund in 2010, by virtue of the deed of dissolution and discharge dated 25 January 2010. However, contributions accrued under the Gratuity Retrenchment Fund will only be disbursed to the staff upon them attaining the mandatory retirement age of sixty (60) or optional retirement age or passed away before attaining the age.

The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation (derived using a discount rate based on the high quality corporate bond) at the reporting date reduced by the fair value of plan assets (if any), adjusted for an effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit plans is determined separately for each plan using the projected unit credit method.

Defined benefit costs comprise the following:

- Service cost
- Net interest on the net defined benefit liability or asset
- Remeasurements of net defined benefit liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognised as expense in profit or loss. Past service costs are recognised when plan amendment or curtailment occurs.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on high quality corporate bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognised as expense or income in profit or loss.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognised immediately on other comprehensive income in the period in which they arise. Remeasurements are recognised in retained earnings within equity and are not reclassified to profit or loss in subsequent period.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Company, nor can they be paid directly to the Company. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity of expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations).

The Company's right to be reimbursed for some or all of the expenditure required to settle a defined benefit obligation is recognised as a separate asset at fair value when, and only when, reimbursement is virtually certain.

### **Borrowing costs**

All borrowing costs are recognised as an expense in the year in which they are incurred.

### **Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

#### *Current tax*

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the statements of profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The liability of the Economic Entity and of the Company for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

### *Deferred tax*

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, unused tax losses and unused tax credits can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Economic Entity and the Company expect, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Economic Entity and the Company intend to settle its current tax assets and liabilities on a net basis.

### *Current and deferred tax for the year*

Current and deferred tax are recognised as an expense or income in the statements of profit or loss, except when they relate to items that are recognised outside statements of profit or loss, in which case the tax is also recognised outside the statements of profit or loss.

### **Property, plant and equipment**

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses; if any.

Depreciation is recognised so as to write off the cost of assets less their residual values over their useful lives, using the straight-line method on the following bases:

Buildings	2%
Motor vehicles	15%
Office equipment, furniture, fittings and renovation	12.5% - 33.33%

The estimated useful lives, residual values and depreciation method of property, plant and equipment are reviewed at each year end, with the effect of any changes in estimates accounted for prospectively.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the statements of profit or loss.

## Leases

### (a) As lessee

The Economic Entity and the Company assess whether a contract is or contains a lease, at inception of the contract. The Economic Entity and the Company recognise a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Economic Entity and the Company recognise the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Economic Entity and the Company use the incremental borrowing rate specific to the lessee.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the statements of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability by using the effective interest method and by reducing the carrying amount to reflect the lease payments made.

The Economic Entity and the Company remeasure the lease liability and make a corresponding adjustment to the related right-of-use asset whenever:

- the lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate;
- the lease payments change due to changes in an index or rate or change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate, unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used; or
- a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Economic Entity and the Company did not make such adjustments during the periods presented.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Economic Entity and the Company incur an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under MFRS 137, to the extent that the costs relate to a right-of-use asset, the costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Economic Entity and the Company expect to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the statements of financial position.

The Economic Entity and the Company apply MFRS 136 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in the profit or loss.

(b) **As lessor**

Leases for which the Economic Entity and the Company is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

When a contract includes lease and non-lease components, the Economic Entity and the Company apply MFRS 15 to allocate the consideration under the contract to each component.

**Impairment of non-financial assets**

At the end of the reporting period, the Economic Entity and the Company review the carrying amounts of assets (other than financial assets, which are dealt with in its respective policies) to determine if there is any indication that those assets may be impaired. If any such indication exists, the asset's recoverable amount, which is the higher of net selling price and value in use, is estimated.

Where it is not possible to estimate the recoverable amount of an individual asset, the Economic Entity and the Company estimate the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognised in the statements of profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease to the extent that the impairment loss does not exceed the amount held in the asset revaluation reserve for the same asset. An impairment loss is reversed if there has been a change in the estimate used to determine the recoverable amount.

An impairment loss is only reversed to the extent that the carrying amount of the asset does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, had no impairment loss been recognised for the asset in prior years. A reversal is recognised immediately in the statements of profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

### **Investments in associates**

An associate is an entity over which the Economic Entity has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

Under the equity method, an investment in an associate is recognised initially in the consolidated statements of financial position at cost and adjusted thereafter to recognise the Economic Entity's share of the profit or loss and other comprehensive income of the associate. When the Economic Entity's share of losses of an associate exceeds the Economic Entity's interest in that associate (which includes any long-term interests that, in substance, form part of the Economic Entity's net investment in the associate), the Economic Entity discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Economic Entity has incurred legal or constructive obligations or made payments on behalf of the associate.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Economic Entity's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Economic Entity's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of MFRS 136 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Economic Entity's investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with MFRS 136 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount.

Any impairment loss recognised is not allocated to any asset, including goodwill that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with MFRS 136 to the extent that the recoverable amount of the investment subsequently increases.

The Economic Entity discontinues the use of the equity method from the date when the investment ceases to be an associate. When the Economic Entity retains an interest in the former associate and the retained interest is a financial asset, the Economic Entity measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with MFRS 9. The difference between the carrying amount of the associate at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate is included in the determination of the gain or loss on disposal of the associate. In addition, the Economic Entity accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Economic Entity reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the associate is disposed of.

When the Economic Entity reduces its ownership interest in an associate but the Economic Entity continues to use the equity method, the Economic Entity reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

When a group entity transacts with an associate of the Economic Entity, profits and losses resulting from the transactions with the associate are recognised in the Economic Entity's consolidated financial statements only to the extent of interests in the associate that are not related to the Economic Entity.

Investment in associates are stated at cost less accumulated impairment losses, at the Company's separate financial statements. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is included in profit or loss.

### **Provisions**

Provisions are recognised when the Economic Entity and the Company have a present obligation (legal or constructive) as a result of a past event and it is probable that the Economic Entity and the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

### **Financial instruments**

Financial assets and financial liabilities are recognised in the Economic Entity's and the Company's statements of financial position when the Economic Entity and the Company become a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

(a) **Financial assets**

(i) **Initial recognition and measurement**

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (“FVOCI”), and fair value through profit or loss (“FVTPL”).

The classification of financial assets at initial recognition depends on the financial asset’s contractual cash flow characteristics and the Economic Entity’s business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Economic Entity has applied the practical expedient, the Economic Entity initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. In order for a financial asset to be classified and measured at amortised cost or FVOCI, it needs to give rise to cash flows that are ‘solely payments of principal and interest’ (“SPPI”) on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Economic Entity’s business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Economic Entity commits to purchase or sell the asset.

(ii) **Classification and subsequent measurement**

The Economic Entity and the Company classify all of its financial assets based on the business model for managing the assets and the asset’s contractual cash flow characteristics, measured at either:

- Amortised cost;
- Fair value through other comprehensive income (“FVOCI”); or
- Fair value through profit or loss (“FVTPL”).

***Financial assets at amortised cost***

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest (“SPPI”), and that are not designated at FVTPL, are measured at amortised cost using the effective interest method. The carrying amount of these assets is adjusted by impairment losses recognised and measured using the expected credit loss models. Interest/profit income on financial assets measured at amortised cost is recognised in ‘interest/profit income’ in the statements of profit or loss. The losses arising from impairment on loans, advances and financing are recognised in the statements of profit or loss as ‘allowance for impairment loss’.

***Fair value through other comprehensive income (“FVOCI”)***

Financial assets that are held for collection of contractual cash flows and for selling the assets, where the assets’ cash flows represent SPPI, and that are not designated at FVTPL, are measured at FVOCI. The changes in the fair value are recognised through other comprehensive income, except for the recognition of impairment losses measured using the expected credit loss models, interest/profit income and foreign exchange gains or losses on the financial assets’ amortised cost which are recognised in profit or loss.

Interest/Profit earned whilst holding the assets are reported as ‘interest/profit income’ using the effective interest method. When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified to profit or loss. Equity instruments are normally measured at FVTPL. However, for non-traded equity instruments, with an irrevocable option at inception, the Economic Entity and the Company measure the changes through FVOCI (without recycling profit or loss upon derecognition). Such classification is determined on an instrument-by-instrument basis. When this election is used, fair value gains or losses are recognised in other comprehensive income and are not subsequently reclassified to profit or loss, including on disposal. Dividends earned whilst holding the equity investment are recognised in profit or loss when the right to the payment has been established.

#### ***Fair value through profit or loss (“FVTPL”)***

Financial assets that do not meet the criteria for amortised cost or FVOCI, including financial assets held-for-trading and derivatives, are measured at FVTPL. Upon derecognition, the gain or loss on a financial asset that is subsequently measured at FVTPL and is not part of a hedging relationship is recognised in profit or loss. Interest/Profit earned whilst holding the assets are reported as ‘interest/profit income’ using the effective interest method.

#### ***Business model assessment***

The Economic Entity and the Company make an assessment of the objective of a business model in which an asset is held at a portfolio level which best reflects the way the business is managed and information is provided to management. The factors considered includes policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management’s strategy focuses on earning contractual interest/profit revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets. Other factors considered also include the frequency, volume and timing of sales in prior periods, how the asset’s performance is evaluated and reported to key management personnel, and how risks are assessed and managed.

#### ***The SPPI test***

Where the business model is to hold the financial assets to collect contractual cash flows, or to collect contractual cash flows and sell, the Economic Entity and the Company assess whether the financial assets’ contractual cash flows represent solely payment of principal and interest. In applying the SPPI test, the Economic Entity and the Company consider whether the contractual cash flows are consistent with a basic lending arrangement, i.e. interest includes only consideration for time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at FVTPL. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

(iii) **Impairment of financial assets**

The MFRS 9 impairment requirements are based on an expected credit loss (“ECL”) model. The ECL model applies to financial assets measured at amortised cost or at FVOCI, irrevocable loan/financing commitments and financial guarantee contracts, which include loans, advances and financing and debt instruments held by the Economic Entity and the Company. The ECL model also applies to contract assets under MFRS 15 *Revenue from Contracts with Customers* and lease receivables under MFRS 16 *Leases*.

***Significant increase in credit risk***

The assessment of significant deterioration since initial recognition is key in establishing the point of switching between the requirement to measure an allowance based on 12-month ECL and one that is based on lifetime ECL. The quantitative and qualitative assessments are required to estimate the significant increase in credit risk by comparing the risk of a default occurring on the financial assets as at reporting date with the risk of default occurring on the financial assets as at the date of initial recognition.

The following table shows the staging transfer criteria which the Economic Entity and the Company used to identify customers (excluding staff) that has significantly increased in credit risk.

<b>Stage</b>	<b>Credit risk status</b>	<b>Principal and interest/profit in arrear</b>
1	Not significantly increased in credit risk	0 - 3 months
2	Significantly increased in credit risk	4 - 5 months
3	Significantly increased in credit risk	6 months and above

The Economic Entity and the Company apply a three-stage approach based on the change in credit quality since initial recognition:

**Stage 1: 12-month ECL - not credit-impaired**

For exposures where there has not been a significant increase in credit risk since initial recognition and that are not credit-impaired upon origination, the ECL associated with the probability of default events occurring within next 12 months will be recognised.

**Stage 2: Lifetime ECL - not credit-impaired**

For exposures where there has been a significant increase in credit risk since initial recognition but that are not credit-impaired, a lifetime ECL will be recognised.

**Stage 3: Lifetime ECL - credit-impaired**

Financial assets are assessed as credit-impaired when one or more events that have detrimental impact on the estimated future cash flows of that asset have occurred. For financial assets that are credit-impaired, a lifetime ECL will be recognised.

### ***Definition of default***

The Economic Entity and the Company consider a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations when:

- Principal or interest/profit or both on loan/financing receivables are in arrear for more than 6 months; or
- Principal or interest/profit or both on staff loans are in arrear for more than 1 month.

As a part of a qualitative assessment of whether a borrower is in default, the Economic Entity and the Company also considers a variety of instances that may indicate unlikelihood to pay.

When such events occur, the Economic Entity and the Company carefully considers whether the event should result in treating the borrower as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2 is appropriate. Such events include borrower is insolvent or it is becoming probable that the borrower will enter bankruptcy.

### ***ECL measurement***

There are three main components to measure ECL which are a probability of default model (“PD”), a loss given default model (“LGD”) and the exposure at default model (“EAD”). These parameters are derived from internally developed statistical models and adjusted to reflect forward-looking information as described below.

The 12-month and lifetime PD represent the expected point-in-time probability of default over the next 12 months and remaining lifetime of the financial instrument respectively, based on conditions existing at the reporting date and future economic conditions that affect credit risk. The LGD represents the expected loss if a default event occurs at a given time, taking into account the mitigating effect of collateral, its expected value when realised and the time value of money. The EAD represents the expected exposure at default, taking into account the repayment of principal and interest/profit from the reporting date to the default event together with any expected drawdown of a facility.

The 12-month ECL is equal to the discounted sum over the next 12 months of monthly PD multiplied by LGD and EAD. Lifetime ECL is calculated using the discounted sum of monthly PD over the remaining life multiplied by LGD and EAD. The discount rate used in the ECL measurement is the original effective interest rate or an approximation thereof.

### ***Forward looking information***

The Economic Entity and the Company have developed methodologies for the application of forward macro-economic variables (“MEV”) which comprise economic indicators and industry statistics in the measurement of ECL. This involves the incorporation of MEVs into the estimation of the PD and LGD via an application of a scale. The process of formulating a scale involves developing the correlation of MEVs to default rates and recovery rates for various portfolios of financial assets based on analysis of historical data. This correlation is then used to form the predicted effect between the MEVs and PD as well as LGD, taking into account the projection of MEVs.

The carrying amount of the asset (other than debt instrument measured at FVOCI) is reduced through the use of an allowance account and the loss is recognised in profit or loss. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account.

The impairment loss for a debt instrument measured at FVOCI does not reduce the carrying amount of the financial asset which remains at fair value. Instead, an amount equal to the allowance that would arise if the asset was measured at amortised cost is recognised in other comprehensive income as an accumulated impairment amount, with a corresponding charge to profit or loss.

The accumulated loss recognised in other comprehensive income is reclassified to the profit or loss upon the derecognition of the financial asset. For loan/financing commitments and financial guarantee contracts, the loss allowance is recognised as expected credit losses on loan/financing commitments and financial guarantees which is reported under 'other payables' in the statements of financial position.

#### ***Modification of loans/financing***

Where a loan/financing shows evidence of significant credit weaknesses, the Economic Entity and the Company sometimes renegotiate or otherwise modify the contractual cash flows of the loans/financing rather than take possession of the collateral. When this happens, the Economic Entity and the Company assess whether the new terms are substantially different from the original terms. The Economic Entity and the Company consider, among others, the following factors:

- (a) If the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay;
- (b) Whether any substantial new terms are introduced that substantially affects the risk profile of the loan/financing;
- (c) Significant extension of the loan/financing term;
- (d) Significant change in the interest/profit rate; and
- (e) Insertion of collateral, other security or credit enhancements that significantly affect the credit risk associated with the loan/financing.

The Economic Entity and the Company derecognised a loan/financing when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan/financing and recalculates a new effective interest/profit rate for the loan/financing. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the Economic Entity and the Company also assess whether the new loan/financing recognised is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments.

If the terms are not substantially different, the renegotiation or modification does not result in derecognition and impairment continues to be assessed for significant increase in credit risk compared to the credit risk at initial origination.

#### ***Write-off policy***

Where a loan/financing is uncollectible, it is written off against the related allowance for loan/financing impairment. Such loans/financing are written off after the necessary procedures have been completed and the amount of the loss has been determined. Subsequent recoveries of the amounts previously written off are recognised in profit or loss.

(iv) **Derecognition of financial assets**

The Economic Entity and the Company derecognise a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Economic Entity and the Company neither transfer nor retain substantially all the risks and rewards of ownership and continues to control the transferred asset, the Economic Entity and the Company recognise its retained interest in the asset and an associated liability for amounts it may have to pay. If the Economic Entity and the Company retain substantially all the risks and rewards of ownership of a transferred financial asset, the Economic Entity and the Company continue to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

(b) **Financial liabilities and equity**

(i) **Classification as debt or equity**

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

(ii) **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Economic Entity and the Company are recognised at the proceeds received, net of direct issue costs.

(iii) **Financial liabilities**

All financial liabilities of the Economic Entity and the Company are measured subsequently at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

(iv) **Derecognition of financial liabilities**

The Economic Entity and the Company derecognise financial liabilities when, and only when, the Economic Entity's and the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

### **Statements of cash flows**

The Economic Entity and the Company adopt the indirect method in the preparation of the statements of cash flows.

Cash equivalents are short-term, highly liquid investments with maturities of one month or less from the date of acquisition and are readily convertible to cash with insignificant risk of changes in value, net of outstanding bank overdraft.

#### **4. CRITICAL JUDGEMENTS AND ESTIMATION UNCERTAINTY**

In the application of the accounting policies of the Economic Entity and the Company, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

##### **(i) Critical judgements in applying accounting policies**

In the process of applying the Economic Entity's and the Company's accounting policy, the directors are of the opinion that there is no instance of application of judgement which is expected to have a significant effect on the amounts recognised in the financial statements.

##### **(ii) Key sources of estimation uncertainty**

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below:

###### **(a) Impairment losses on loan/financing receivables**

The carrying amount of loan/financing receivables measured at amortised cost of the Economic Entity and of the Company as of 31 December 2022 is RM1,136,289,483 (2021: RM1,120,930,246) as disclosed in Note 16.

The measurement of the ECL for financial assets measured at amortised cost is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behaviour.

The use of macroeconomic factors which include, but is not limited to, interest rates, gross domestic product, inflation and property prices, and requires an evaluation of both the current and forecast direction of the economic cycle. Incorporating forward looking information increases the level of estimation as to how changes in these macroeconomic factors will affect ECL. The methodology and assumptions including any forecasts of future economic conditions are reviewed regularly. Further details are disclosed in Note 16.

As the current MFRS 9 models are not expected to generate levels of ECL with sufficient reliability in view of the unprecedented and on-going COVID-19 pandemic, the Economic Entity and the Company have assessed their ECL model and the directors are of the opinion that no management overlays have been applied to determine a sufficient overall level of ECL for the year ended and as at 31 December 2022.

(b) Defined benefit obligations

As disclosed in Note 25, the carrying amount of defined benefit obligations of the Economic Entity and of the Company as of 31 December 2022 is RM6,138,927 (2021: RM6,422,978).

The cost of defined benefit plan is determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, expected rates of return of assets, future salary increases, mortality rates and future benefit increases.

Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

In determining the appropriate discount rate, management considers the interest rates of corporate bonds with at least an 'AA' rating or above, and extrapolated as needed along the yield curve to correspond with the expected term of the defined benefit obligation. The mortality rate is based on publicly available mortality tables for the country. Future salary increases and benefit increases are based on expected future inflation rates for the country. Further details are disclosed in Note 25.

(c) Deferred tax assets

As disclosed in Note 21, the deferred tax assets of the Economic Entity and of the Company as of 31 December 2022 is RM2,131,063 (2021: RM2,545,581).

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. This involves judgement regarding the future financial performance of the particular entity in which the deferred tax asset has been recognised. Further details are disclosed in Note 21.

5. **INTEREST/PROFIT INCOME**

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
Mortgage loan/financing receivables:		
End finance loans/financing	49,313,067	49,320,369
Bridging loans	14,980,683	18,219,166
Revolving loans	6,298,789	5,492,873
Term loans	1,008,402	1,176,048
	<u>71,600,941</u>	<u>74,208,456</u>
Unsecured loans receivable	21,560	27,600
	<u>71,622,501</u>	<u>74,236,056</u>

6. **INTEREST/PROFIT EXPENSE**

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
Deposits from:		
Customers	21,460,511	19,220,182
Supplementary Housing Loan Fund of the State Government of Sabah	519,284	549,407
Others	237,124	270,049
	<u>22,216,919</u>	<u>20,039,638</u>

7. **INVESTMENT INCOME**

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
Interest income from fixed and short-term deposits	3,933,797	2,022,895
Rental income	307,385	307,385
	<u>4,241,182</u>	<u>2,330,280</u>

The following is an analysis of investment income by category of assets.

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
Investment income from financial instruments measured at amortised cost	3,933,797	2,022,895
Investment income earned on non-financial assets	307,385	307,385
	<u>4,241,182</u>	<u>2,330,280</u>

**8. OTHER INCOME**

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
Fee income:

	<u>(72,290)</u>	<u>117,889</u>
Total allowance for impairment loss	<u>3,466,568</u>	<u>5,003,552</u>

**12. PROFIT BEFORE TAX**

Profit before tax has been arrived at after charging:

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
Depreciation and amortisation expense:		
Property, plant and equipment (Note 19)	741,251	668,031
Right-of-use assets (Note 20)	288,095	303,748
Directors' remuneration:		
Non-executive directors:		
Fee	270,000	270,922
Other emoluments	79,573	271,499
Auditors' remuneration	80,000	60,000
Expenses relating to short-term leases	<u>28,800</u>	<u>12,300</u>

13. **INCOME TAX EXPENSE**

	<b>Economic Entity</b>		<b>Company</b>	
	<b>2022</b>	<b>2021</b>	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>	<b>RM</b>	<b>RM</b>
Income tax expense:				
Current year	10,964,736	11,254,926	10,964,736	11,254,926
(Over)/Underprovision in prior year	<u>(43,977)</u>	<u>153,823</u>	<u>(43,977)</u>	<u>153,823</u>
	10,920,759	11,408,749	10,920,759	11,408,749
Deferred tax expense (Note 21):				
Relating to the origination of temporary differences	401,602	398,846	401,602	398,846
Under/(Over)provision in prior year	<u>12,916</u>	<u>(14,621)</u>	<u>12,916</u>	<u>(14,621)</u>
	<u>414,518</u>	<u>384,225</u>	<u>414,518</u>	<u>384,225</u>
	<u>11,335,277</u>	<u>11,792,974</u>	<u>11,335,277</u>	<u>11,792,974</u>

The Economic Entity's and the Company's income tax is calculated at the statutory tax rate of 24% (2021: 24%) of the taxable profit for the year.

A numerical reconciliation of income tax expense applicable to profit before tax at the statutory income tax expense at the effective tax rate is as follows:

	<b>Economic Entity</b>		<b>Company</b>	
	<b>2022</b>	<b>2021</b>	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>	<b>RM</b>	<b>RM</b>
Profit before tax	<u>37,426,656</u>	<u>39,539,936</u>	<u>37,368,973</u>	<u>39,480,921</u>
Tax expense at the applicable tax rates of 24% (2021: 24%)	8,982,397	9,489,585	8,968,553	9,475,421
Tax effects of:

**25. PROVISION FOR GRATUITY AND DEFINED BENEFIT OBLIGATIONS**

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
Provision for gratuity	14,220	45,828
Defined benefit obligations	6,138,927	6,422,978
	<u>6,153,147</u>	<u>6,468,806</u>

**(a) Provision for gratuity**

Movement in the provision for gratuity is as follows:

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
At 1 January	45,828	52,656
Benefits paid	(31,608)	(6,828)
At 31 December	<u>14,220</u>	<u>45,828</u>

This is in respect of Gratuity Retrenchment Fund. Contributions accrued under the Gratuity Retrenchment Fund will only be disbursed to the staff upon them attaining the mandatory retirement age of sixty (60) or optional retirement age or passed away before attaining the retirement age.

**(b) Defined benefit obligations**

The Company operates an unfunded defined benefit plan for qualifying employees of its branches in Sabah and Sarawak. Under the plan, the employees are entitled to retirement benefits of one month final salary for each year of service upon attaining the mandatory retirement age of sixty (60) or optional retirement age or passed away before attaining the retirement age.

The following tables summarise the components of net benefit expense recognised in profit or loss and the amount recognised in the statements of financial position of the plan.

Changes in present value of defined benefit obligations are as follows:

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
At 1 January	6,422,978	6,836,249
Included in profit or loss:		
Current service cost	341,212	373,802
Interest cost	241,763	251,456
	582,975	625,258
Benefits paid by the Company	(867,026)	(1,038,529)
At 31 December	<u>6,138,927</u>	<u>6,422,978</u>

**Net benefit expense**

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
Current service costs	341,212	373,802
Interest cost on benefits obligations	241,763	251,456
	<u>582,975</u>	<u>625,258</u>
Net benefit expense, included in employee benefits expense (Note 9)	<u>582,975</u>	<u>625,258</u>

The cost of defined benefit plan and the present value of the obligations are determined using actuarial valuation. The actuarial valuation involved making various assumptions.

The principal assumptions used in determining employee defined benefit liabilities are shown below:

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>%</b>	<b>%</b>
Discount rate	3.90	3.90
Expected rate of salary increase	4.00	4.00

The average duration of the defined benefit obligations at the reporting date is 15.3 years (2021: 15.3 years).

**26. LEASE LIABILITIES**

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
Maturity analysis:		
Year 1	316,200	316,200
Year 2	65,450	316,200
Year 3	-	65,450
	<u>381,650</u>	<u>697,850</u>
Less; Unearned interest	<u>(9,356)</u>	<u>(31,837)</u>
	<u>372,294</u>	<u>666,013</u>

The weighted average leases incremental borrowing rate applied to lease liabilities is 4.53% (2021: 4.53%) per annum.

As of 31 December 2022, all the lease liabilities represent rental of office building payable to an associate.

27. **SHARE CAPITAL**

	<b>Economic Entity and Company</b>			
	<b>No. of ordinary shares 2022</b>	<b>2021</b>	<b>2022 RM</b>	<b>2021 RM</b>
<b>Issued and fully paid</b>				
Ordinary shares	<u>126,420,084</u>	<u>126,420,084</u>	<u>154,420,084</u>	<u>154,420,084</u>

All ordinary shares are equally eligible to receive dividends and the repayment of capital and carry one vote per share at the shareholders meeting of the Company.

28. **GENERAL RESERVES AND RETAINED EARNINGS**

	<b>Economic Entity</b>		<b>Company</b>	
	<b>2022 RM</b>	<b>2021 RM</b>	<b>2022 RM</b>	<b>2021 RM</b>
Distributable reserves:				
General reserve	113,499,884	108,499,884	113,499,884	108,499,884
Retained earnings	<u>223,691,766</u>	<u>216,600,387</u>	<u>219,181,902</u>	<u>212,148,206</u>
	<u>337,191,650</u>	<u>325,100,271</u>	<u>332,681,786</u>	<u>320,648,090</u>

**General reserve**

General reserve represents amount set aside out of the profits of the Company which shall, at the discretion of the directors, be application for meeting contingencies, repair and maintenance of any works connected with the business of the Company, for equalising dividends, for special dividend or bonus, or such other purposes for which the profits of the Company may lawfully be applied.

**Retained earnings**

The entire retained earnings of the Company is available for distribution as single tier tax-exempt dividend to the shareholders of the Company.

29. **DIVIDENDS**

	<b>Economic Entity and Company</b>	
	<b>2022 RM</b>	<b>2021 RM</b>
Final tax exempt (single tier) dividend for 2020:		
7.91 sen per share	-	10,000,000
Final tax exempt (single tier) dividend for 2021:		
11.07 sen per share	<u>14,000,000</u>	<u>-</u>
	<u>14,000,000</u>	<u>10,000,000</u>

Subsequent to the financial year end, the directors at the Company's Board of Directors' meeting on 9 September 2023 declared a final tax-exempt dividend (single tier) dividend of RM14,000,000 in respect of the financial year ended 31 December 2022. The dividend has not been included as a liability in the financial statements in view of the dividend has not been approved as of the end of the financial year.

30. **RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES**

The table below details changes in the Economic Entity's and Company's liabilities arising from financing activities, including both cash and non-cash changes. Liabilities arising from financing activities are those for which cash flows were, or future cash flows will be, classified in the Economic Entity's and Company's statements of cash flows as cash flows used in financing activities.

**Economic Entity and Company**

	Note	1.1.2022 RM	Net financing cash flows RM	Interest RM	Interest paid RM	31.12.2022 RM
Borrowings - revolving credit facility	23	2,000,000	(2,000,000)	-	-	-

**31. RELATED PARTY TRANSACTIONS**

The Company is equally owned by the Sarawak State Financial Secretary, a body corporate constituted under the State Financial Secretary (Incorporation) Ordinance, 1948, and Qhazanah Sabah Bhd., a company wholly-owned by the State Government of Sabah.

Significant transactions undertaken between the Economic Entity and the Company and related parties are as follows:

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
Agency fees receivable/received from:		
Supplementary Housing Loan Fund of the State		
Government of Sabah	230,660	239,731
Rental received from corporate shareholder	300,785	300,785
Interest payable/paid to:		
Corporate shareholder	(69,123)	(79,212)
Associates	(89,766)	(65,082)
Supplementary Housing Loan Fund of the State		
Government of Sabah	(519,284)	(549,407)
Office rental payable/paid to associate	<u>(316,200)</u>	<u>(316,200)</u>

The related parties transactions are negotiated based on terms and obligations agreed between the Economic Entity and the Company and the related parties.

**Compensation of key management personnel**

Key management personnel are defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Economic Entity and of the Company either directly or indirectly. The compensation of key management personnel are as follows:

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
Short-term employee benefits	606,818	463,053
Defined contribution plan	<u>79,953</u>	<u>71,258</u>
	<u>686,771</u>	<u>534,311</u>

**32. COMMITMENTS AND BANK GUARANTEE**

In the normal course of business, the Economic Entity and the Company make various commitments to their customers. No material losses are anticipated as a result of these transactions.

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
Loans commitment not yet recognised in the financial statements:		
End finance	73,599,248	88,218,650
Bridging, term loans and revolving loans	105,382,019	60,099,214
Guarantees issued	5,995,000	8,178,306
	184,976,267	156,496,170

Guarantees issued are given to other parties on behalf of customers, mainly as a guarantee for the due performance of the customer's obligations under the Housing (Control and Licensing of Developers) Enactment 1978 with legal recourse with its customers. These guarantees are partially secured by fixed deposits placed with the Company and properties charged to the Company.

**33. OPERATING LEASE ARRANGEMENTS**The Economic Entity and the Company as lessors

Operating leases, in which the Economic Entity and the Company are the lessors, relate to the lease of the building owned by the Economic Entity and the Company with lease terms of 2 years.

Maturity analysis of operating lease payments:

	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
Year 1	75,196	300,785
Year 2	-	75,196
	75,196	375,981

Rental income recognised as investment income during the financial year is disclosed in Note 7.

34. **FINANCIAL INSTRUMENTS***Categories of financial instruments*

The table below provides an analysis of financial instruments categorised as follows:

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
<b><i>Financial assets</i></b>		
Amortised cost:		
Cash and bank balances	10,870,043	7,532,438
Deposits and placements with financial institutions	108,000,000	67,000,000
Loan/financing receivables	1,136,289,483	1,120,930,246
Other receivables	1,114,068	1,112,484
	<u>1,256,273,594</u>	<u>1,196,575,168</u>
<b><i>Financial liabilities</i></b>		
Amortised cost:		
Deposits from customers	754,687,864	704,947,084
Borrowings	1,493,525	2,041,817
Other payables	27,553,017	29,586,604
Accrued expenses	2,085,058	1,668,427
Lease liabilities	372,294	666,013
	<u>786,191,758</u>	<u>738,909,945</u>

**Financial risk management objectives and policies**

The Economic Entity and the Company are exposed to financial risks arising from their operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk and interest rate risk.

The Board of Directors reviews and agrees policies and procedures for the management of these risks, which influence the primary objective of the Economic Entity and the Company's capital management which are executed by the management.

It is, and has been throughout the current and previous financial year, the Economic Entity's policy that no trading in derivatives for speculative purposes shall be undertaken.

There has been no change to the Economic Entity's exposure to these financial risks or the manner in which it manages and measures the risks.

***Credit risk management***

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Economic Entity and the Company. The Economic Entity and the Company deal with creditworthy counterparties and would endeavour to obtain sufficient collateral for the loans granted, as a means of mitigating the risk of financial loss from defaults. Credit exposure is controlled by the counterparty limits that are reviewed and approved by the Board of Directors.

### Exposure to credit risk

As of 31 December 2022, there are 2 (2021: 2) counterparties that have exceeded 5% of gross monetary assets. The Economic Entity and the Company define counterparties having similar characteristics if they are related entities. The credit risk on liquid funds (investment in the form of fixed deposits and money market instruments) is limited because the counterparties are banks and financial institution with high credit-ratings.

Guarantees issued are given to other parties on behalf of customers, mainly as a guarantee for the due performance of the customer's obligations under the Housing Developers (control and Licensing) Enactment 1978 with legal recourse with its customers. These guarantees are partially secured by fixed deposits placed with the Company and properties charged to the Company. Thus no material losses are anticipated as a result of these guarantees issued.

The maximum amount the Economic Entity and the Company could be forced to settle under the financial guarantee contract is RM6 million (2021: RM8.2 million) and such financial guarantees are partially secured by fixed deposits placed with the Economic Entity and the Company. Based on expectations at the end of the reporting period, the Economic Entity and the Company consider that it is more likely than not that no amount will be payable under the arrangement. However, this estimate is subject to change depending on the probability of the counterparty claiming under the guarantee which is a function of the likelihood that the financial receivables held by the counterparty which are guaranteed suffer credit losses.

The carrying amount of financial assets recorded in the financial statements, grossed up for any allowances for losses, and the exposure to defaults from financial guarantees above, represents the Economic Entity and the Company's maximum exposure to credit risk without taking account of the value of any collateral obtained.

### ***Liquidity and cash flow risks management***

Liquidity risk is the risk that the Economic Entity or the Company will encounter difficulty in meeting financial obligations due to shortage of funds. Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has built an appropriate liquidity risk management framework for the management of the Economic Entity and the Company's short, medium and long-term funding and liquidity management requirements. The Economic Entity and the Company manage liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowings facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

As at the reporting date, the Economic Entity and the Company have at their disposal undrawn bank overdraft and revolving credit loan facilities of RM49 million (2021: RM58.5 million), deposit placements with financial institutions of RM108 million (2021: RM67 million) and cash and bank balances of RM10.9 million (2021: RM7.5 million), totalling RM167.9 million (2021: RM133 million) to further reduce liquidity risk. In addition, a significant portion of the financial liabilities are deposits from shareholders and state governments, insurance companies and Supplementary Housing Loan Fund of the State Government of Sabah (Note 22 and Note 24). The directors believe that the shareholders would continue to support the Company by rolling over their deposit placements and that the probability of them withdrawing the deposits within next 12 months is remote.

Analysis of financial instruments by remaining contractual maturities

The following table details the Economic Entity and the Company's liquidity analysis for its non-derivative financial liabilities. The table below has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date in which the Economic Entity and the Company can be required to pay.

**Economy Entity and Company**

<b>2022</b>	<b>Effective interest rate %</b>	<b>On demand or within one year RM</b>	<b>One year to five years RM</b>	<b>Over five years RM</b>	<b>Total RM</b>
Financial liabilities:					
Deposits from customers	1.50 - 4.20	775,524,629	671,839	-	776,196,468
Borrowings	2.86 - 7.47	1,603,000	-	-	1,603,000

Accrued expenses	-	1,668,427	-	-	1,668,427
Lease liabilities	4.53	316,200	381,650	-	697,850
Guarantees issued	-	8,034,291	-	-	8,034,291
		<u>762,878,661</u>	<u>922,067</u>	<u>-</u>	<u>763,800,728</u>

***Interest rate risk management***

Interest rate risk is the risk that the fair value or future cash flows of the Economic Entity and the Company's financial instruments will fluctuate because of changes in market interest rates.

The Economic Entity and the Company's exposure to interest rate risk arises primarily from its deposits and placements with financial institutions, loan receivables, deposits from customers, borrowings and other payables.

The Economic Entity and the Company's policy is to manage its interest cost by maintaining a mix of fixed and floating rate borrowings and by spreading out the timing of interest rate fixing. In addition, the Economic Entity and the Company's interest bearing financial liabilities are hedged by interest-bearing financial assets, such as deposits and placements with financial institutions and loans receivables.

Sensitivity analysis for interest rate risk

At the reporting date, if interest rates had been 50 basis points higher/lower, with all other variables held constant, the Economic Entity's and the Company's profit for the year would have been RM3.75 million (2021: RM3.63 million) lower/higher respectively, arising mainly as a result of the Economic Entity's and the Company's exposure to interest rates on their variable rate financial assets and financial liabilities. The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

***Capital risk management***

The primary objective of the Economic Entity and the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholder value.

The Economic Entity and the Company manage their capital structure and make adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Economic Entity and the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the years ended 31 December 2022 and 31 December 2021.

The Economic Entity and the Company are not subject to any externally imposed capital requirements.

The Company is required to maintain a borrowing limit (75% of mortgage loans) in order to comply with the requirement under Article 89 of its Articles of Association. As at 31 December 2022, deposits from customers and borrowings represent 64% (2021: 61%) of gross mortgage loans/financing receivables of the Company.

	<b>Economic Entity and Company</b>	
	<b>2022</b>	<b>2021</b>
	<b>RM</b>	<b>RM</b>
Deposits from customers	754,687,864	704,947,084
Borrowings	1,493,525	2,041,817
	756,181,389	706,988,901
Gross mortgage loans/financing receivables	1,177,982,396	1,159,145,942
Borrowing limit	64%	61%

**Fair values of assets and liabilities****Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value**

The following are classes of financial instruments that are not carried at fair values and whose carrying amounts are reasonable approximation of fair value:

	<b>Note</b>
Cash and bank balances	14
Deposits and placements with financial institution	15
Loan/financing receivables	16
Other receivables	17
Deposits from customers	22
Borrowings	23
Other payables	24
Lease liabilities	26

The carrying amounts of these financial assets and liabilities are reasonable approximation of fair values due to short-term maturities of these instruments or is estimated based on expected future cash flows of contractual instalments discounted at prevailing indicative rates adjusted for credit risk.

**35. ISLAMIC BANKING BUSINESS**

The financial performance and the financial position under the Islamic Banking Business of the Economic Entity and of the Company included in the financial statements of the Economic Entity and of the Company are summarised as follows:

**Statements of comprehensive income for the year ended 31 December**

	<b>Note</b>	<b>Economic Entity and Company</b>

### 36. SIGNIFICANT EVENT

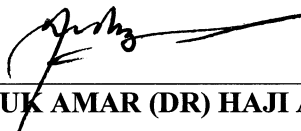

In line with the announcement made by State Government of Sabah and Sarawak to further support those impacted by Covid-19, the Economic Entity and the Company have granted additional six-month's moratorium on loan repayments from 1 September 2021 to 28 February 2022 to its eligible borrowers. The payment moratorium does not significantly impact on business operations of the Economic Entity and the Company.

**BORNEO HOUSING MORTGAGE FINANCE BERHAD**  
(Incorporated in Malaysia)

**STATEMENT BY DIRECTORS**

The directors of **BORNEO HOUSING MORTGAGE FINANCE BERHAD** state that, in their opinion, the accompanying financial statements are drawn up in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the provisions of the Companies Act 2016 in Malaysia so as to give a true and fair view of the financial position of the Economic Entity and of the Company as of 31 December 2022 and of the financial performance and cash flows of the Economic Entity and of the Company for the year ended on that date.

Signed in accordance with a resolution of the Directors,

**TAN SRI DATUK AMAR (DR) HAJI ABDUL AZIZ BIN HAJI HUSAIN**
